

THE BETTER WAY TO INSTALL GROOVED DECKING

EXPERIENCE THE MOST COMFORTABLE CLIP INSTALL

The ergonomic and lightweight tool allows you to stand comfortably while fastening, and the height-adjustable handle makes it the perfect fit for the whole crew.

SPEED THROUGH INSTALLS

ClipDRIVE features a weighted nose so you can quickly swing the tool from joist to joist and easily target the exposed screw head while the no-mar nose prevents rings or scuffs.

SIMPLE DESIGN. RELIABLE PERFORMANCE.

You don't need an instruction manual to get to work with ClipDRIVE. The heavy-duty contractor-grade tool is simple to put together and comes with a T-15 bit that's easy to install.

CAMO ClipDRIVE and Universal Deck Clips are backed by a CAMO Warranty for use with leading deck boards. Read the full warranty at camofasteners.com

HOW TO

LOAD THE INCLUDED T-15 BIT.

ATTACH TO YOUR DRILL.

PLACE BOARDS AND CLIPS.

FASTEN THE BOARDS WHILE STANDING.

THE ULTIMATE GROOVED DECK FASTENING SYSTEM

ClipDRIVE was intentionally designed to install CAMO Universal Deck Clips. Add 2-4 CAMO LEVER® tools to your jobs to lock rows of boards and clips in place for an efficient grooved decking install.

CAMO UNIVERSAL DECK CLIPS

- Designed and warranted for use with all leading grooved decking
- Clip solutions for wood and metal joists
- Available in 90 ct. (50 sq. ft., 4.64 m²), 450 ct. (250 sq. ft., 23.22m²), and 900 ct. (500 sq. ft., 46.45m²)

CAMO LEVER®

- Board bending and locking tool
- Lock rows of boards and clips in place, freeing you up to fasten
- Works with wood and metal joists 1-½ to 3 inches wide
