

THE ULTIMATE DECK CLIP FOR STEEL FRAMING

ONE-PASS, ONE-HANDED INSTALLATION

Pre-assembled clip doesn't require partial installation—it stays in place in the groove until you're ready to fasten.

ANY BOARD, ANY ANGLE, ON METAL

Use WEDGEMETAL® to fasten any grooved board at any angle on 14-18GA metal framing, including Fortress® Evolution™ and New Castle Steel®.

FASTEN BY HAND OR STANDING UP

Install 2X faster with the included* NEVER-MISS® Guide or up to 5X faster with the CAMO ClipDRIVE™ or DRIVE

WEDGEMETAL® Clips are warranted by CAMO for use with Trex®, TimberTech® by AZEK®, Fiberon®, MoistureShield®, Deckorators®, and other leading brands. Read the full warranty at camofasteners.com

**WEDGEMETAL® FOR
ANY DECK PATTERN ON
14-18GA METAL JOISTS**

HOW TO

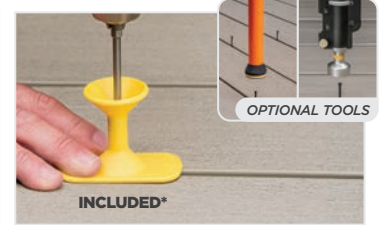

TILT THE WEDGEMETAL CLIP SO THE LOWER PRONGS ENTER THE GROOVE FIRST, THEN TILT THE CLIP BACK UP TO WEDGE INTO THE GROOVE.

PLACE A CLIP AT EVERY JOIST ALONG THE LENGTH OF THE BOARD.

SLIDE ON NEXT BOARD.

FASTEN WITH THE INCLUDED* NEVER-MISS® GUIDE OR OPTIONAL CLIPDRIVE™ OR DRIVE TOOLS.

START USING THE BETTER DECK CLIP FOR METAL

- Clips create 3/16 in. (4.7mm) spacing between boards
- Top-down access allows for easy board removal if needed
